

Brand Function & Corporate Identity Guidelines

The symbol is usually accompanied by the Gülermak name established for the company as seen on subsequent pages of this guideline.

Complete information about the guidelines can be provided from the Office of Corporate Communications, Gülermak.

The Gülermak name has been established as a logotype to set in a bold typeface in balance with the symbol.

GÜLERMAK

The size relationship of the symbol and the Gülermak name has been carefully determined and must not be altered. Please note that the space between the symbol and the Gülermak name (marked below as "x") is equal to the space between the ends of the letter "A".

The safety area around the Gülermak logotype is suggested on all sides to be at least the height of the lowercase letters, marked below as “y”. It is understood that in narrow columns, it may not be possible to maintain the safety area on both sides of the lockup.
